Mike never really needed anyone until he met his best friends .Will,Dustin and lucas , he and his friends thought that having girlfriends would break them up not will though he thought it was completely fine to have a girlfriend , to have someone you can put your head on ,or lean on . " school sucks and now we have to be back in this dreadful place" Dustin said " its not that bad we have mr.clarke " Will said " true , i heard he quit his job at hawkins middle school just to teach us while we're in high school " will said " see ,we dont need girls we have mr.clarke and each other " Dustin said .

" Thomas edison did invent the lightbulb in 17-" mr . clarke was interrupted by his door opening revealing two girls wearing baggy shirts with bands on them and rpped jeans and cokbat boots one girls hair was slicked baxk with a smoky black eye same with the other girl except the other girl was a red head and her hair was in a ponytail i found these two outside ready to leave school smoking cigars and sais they where skipping your class " said th hall monitor jeffrey . the girls went to the back of the room and slouched in their chairs . mikes eyes went straight to the girls they where misfits outcasts like him and his friends
